SCAQMD Issues Smoke Advisory for Fire Burning in the Highland Area

This advisory is in effect today, June 30, 2017, through the morning of Saturday, July 1, 2017. SCAQMD will issue an update if additional information becomes available.

A brush fire, named the Mart Fire, is burning in San Bernardino County, near the City of Highland into the San Bernardino Mountains. The burn area was estimated this morning to be 670 acres with 60 percent containment. Winds are expected to be primarily from the west today, with mainly local smoke impacts although smoke production currently appears low. Air quality may reach **Unhealthy** levels in areas directly impacted by smoke.

Depending on fire conditions, areas of greatest direct smoke impacts and potentially **Unhealthy** air quality may include portions of:

- the Central San Bernardino Valley (Forecast Area 34);
- the East San Bernardino Valley Area (Forecast Area 35);
- the Central San Bernardino Mountains (Forecast Area 37); and
- the East San Bernardino Mountains (Forecast Area 38).

All individuals are urged to exercise caution and avoid unnecessary outdoor activities in any area directly impacted by smoke. This includes areas where residents can see or smell smoke.

In any area directly impacted by smoke: Everyone should avoid any vigorous outdoor or indoor exertion; people with respiratory or heart disease, the elderly, and children should remain indoors. Keep windows and doors closed or seek alternate shelter. Run your air conditioner if you have one and keep the fresh air intake closed and the filter clean to prevent bringing additional smoke inside. Avoid using a swamp cooler or whole-

house fan to prevent bringing additional smoke inside. To avoid worsening the health effects of wildfire smoke, don't use indoor or outdoor wood-burning appliances, including fireplaces.
